NATURE TRAILS

Nearly six miles of nature trails allow you to wander through the Huron Swamp and the adjacent fields, meadows and woodlands. As the seasons change, so do the sights and sounds along the trails. Come and enjoy spring's chorus of frogs, summer's symphony of cricket calls, autumn's blaze of colors, and winter's animal-tracked blanket of snow. All distances are round-trip from the Park Office. The trails are open during the posted park hours.
